New Hope Orphanage & School provides food, lodging, clothing and day school - grades 1 through 8 - to now over 800 orphans. In addition, the orphanage features sports teams and also has a small clinic where medical professionals may visit to treat on a regular basis the various members of both the orphanage children as well as the staff.

NH Orphanage opened the doors in 2001 to 150 orphans. At that time we did not have running water or electricity. We only had 2 buildings and an outhouse.

Our dormitory was also the main building with one side for boys, one for girls. children as well as the staff.

Now with additional dormitories that our volunteers and staff have built, our increased capacity has allowed us to increase our number of children. And we continue to grow.

Thank you for your continuing support as we endeavor to better support our children and out staff with a replenish of our **Medical Supplies**. Visit our Web site for more information and on-going updates.

*Sincerely, Pastor Chris Lubega.*
